MARTINA (TINNI) SNÅRE

Visual artist and Legal Professional

Profile

Visual artist and legal professional exploring the intersection of regulation, freedom and creativity. My artistic practice spans painting, sculpture, design and collaborative public art. Alongside my artistic practice, I have extensive professional experience in law, corporate governance and regulatory matters. This dual perspective informs my interest in how structures, rules and boundaries can both constrain and stimulate creativity.

ARTISTIC PRACTICE

Entrepreneurship and Initiatives:

- **Founder and owner of Art Studio Tinni Snåre, 2019-**
Founded and developed an independent artistic practice and creative business alongside a career in law. Since 2019, I have developed and exhibited work across painting, sculpture, mixed media and public art, while building collaborations, commissions, exhibitions and professional networks within the Finnish art scene.
- **Founder of Luomani.art (to be released 1.1.2027)**
Founder and one of the developers of Luomani, an emerging digital platform designed to increase artists visibility and create new opportunities for professional exchange and collaboration. The initiative reflects my broader interest in building structures that empower artists and expand their creative and professional agency.
